040507803, 30101810200000000803**Commercial offer**

LLC "Dalasphalt" offers the product "cold asphalt", made in Primorsky territory.

HS code: 2715000000**Product name:** mineralogical cold-patch mixture ("cold asphalt")**Package:** 25 kg, 430/600 mm/200 micrometers, plastic bag, black**This product is using for:**

- patching of the road and sidewalk;
- patching of the sewer manhole and sewer grate;
- maintenance and repair of railway crossing and platform in a railway station;
- construction and reconstruction of the garden path;
- foundation blind area maintenance;
- construction of the garage driveway;
- eliminations of the wheel tracks on the roads;
- asphalt laying on the small areas (parking spaces).

Application method:

Product "cold asphalt" can be laid in dry and in moderately humid weather at an ambient temperature of + 40 ° C to -30 ° C. In the cold season before laying the mixture should be placed in a warm room for 1-2 days to resume its mobility. It is recommended to mix the mixture to a homogeneous condition before laying.

Product price (delivery cost is not included): 205 USD per 1 ton*

* price is based on currency rate at the date 14/08/2018; price can be changed according to the currency exchange rate changes
